

Here is another prime example of the government and its agencies listening to the profit motivated call of big business instead of the voice of the people. We on the No Call list have chosen to be on such a list. WE DO NOT WANT TO BE SUBJECTED TO UNWANTED PHONE CALLS!!! Plain and simple. If we want contact with a company we will initiate that contact. Plain and simple. Adding loopholes to the restrictions to accomodate the telemarketers is a disservice to those of us on the list. Our wishes mean nothing, we don't count. We are bombarded with advertisements, mailings, emails, and faxes every day. It is wonderful not having the intrusive phone calls. Please do not allow big business to snake its way back into my phone. Leave our No Call list as is - or if you must change it - make it MORE restrictive! It was MY choice to be placed on the WI and federal lists - please respect my choice and allow me the peace I deserve.
